Richard C. Stowell

Executive Director

Support Utah Public Schools  
... where learning comes first!

March 8, 2007

Zane Woolstenhulme  
Business Administrator  
375 East 300 South  
Kamas, Utah 84036

Zane:

The Utah School Boards Association has endorsed Advent Systems, Inc. based upon a due diligence review of not only their products but also their service. Utah School Boards Association's review process requires that prior to any proposed addition to its member services; the Executive Director, the Executive Committee, and ultimately the Board of Directors each scrutinize the proposal.

The greatest influential factor, aside from customer service, in the Board's final approval was the clarity in which images are recorded and the ease of access to the surveillance cameras (by authorized personnel) from remote locations off-campus sites. Such access and visual clarity has provided Utah administrators greater efficiency in dealing with situations ranging from adverse weather conditions at their building site to disciplinary issues with employees. In fact, a Utah school principal reported their system paid for itself in just a couple weeks after installation.

The Utah School Boards Association is confident in the products and services Advent Systems, Inc. will deliver.

Sincerely,

Chad SW Harris  
Associate Executive Director
